Wednesday 18 June

1. HOW WE SEE GOD by John & Paula Sandford. 65 mins.

Our image of God is shaped by the impact of significant people in our life. Consequently our image of God is usually distorted. Healing of our image of God frees us to relate to him more closely.

Wednesday 25 June

2. BASIC TRUST by Charles Fink. 59 mins.

Basic trust is the first and foremost developmental accomplishment. Failure to acquire basic trust affects us throughout our adult lives, impacting our ability to relate to God and others.

Wednesday 2 July

3. IDENTIFICATIONS OF LOVE by John & Paula Sandford. 59 mins.

Our identifications of love are wrapped up in specific words, gestures, actions, and attitudes which we deem to be love. Formed from childhood, they define and limit our idea of what true love is; they almost assuredly deny us the full joy of giving and receiving it.

Wednesday 9 July

4. RECOGNITION OF FRUIT TO ROOT PATTERNS by David Brown. 44mins.

Why do we experience repeating patterns in our life that cause us and those close to us trouble? Early in our life we develop certain expectations about life, and these expectations have a way of playing out even if they are not what we want. A new way is possible.

Wednesday 16 July

5. FORGIVENESS by John Sandford. 62 mins.

We often cling to unforgiveness because we think it justifies and protects us. In truth, it separates us from God and others, and keeps us in bondage to pain and sin.

Wednesday 23 July

6. PERFORMANCE ORIENTATION by Penny Elder. 60mins.

A common tendency is to fall back into striving by human effort. We know that God loves us unconditionally, but our habit of earning love by performance persists. We live unaware that motives other than God's love drive us into strife, tension and fear.
